

Adopted February 2011
Cornerstone Business Use Policy

Businesses understandably see our member list as a potential source of new customers. And members understandably see the same list as a source for Christian businesses. Unfortunately, long experience has taught the elders that such use of member information is often subject to abuse, leading to frustration on many sides. Therefore,

- The church directory may not be used as a solicitation base, potential mailing list or any other business purpose, nor will we expand it to serve as any sort of church business directory.*
- Church events, facilities, websites or publications may not be used for business purposes.

If you would like further clarification, please speak with any of our elders.

*** Disclaimer for directory:** NOT FOR BUSINESS PURPOSES. Use as a solicitation base, potential mailing list or any other business purpose is strictly prohibited. If you suspect misuse of this information, please contact the church office.
